

Screen Capture Demo – Windows Mobile SDK – C#

This sample application demonstrates how to take a screenshot on a Windows Mobile device and print it to a Zebra CPCL printer using the Zebra Windows Mobile SDK via Bluetooth.

This sample application was developed using MS Visual Studio 2008 and tested in a Windows Mobile 6.5 environment, printing to a Zebra MZ 320 printer. This application is for demonstration purposes only. It is provided AS-IS without any support.

To run this sample application, load the contents of the \bin\ Debug directory into a directory on your Windows Mobile device and run the edit the Screenshot.exe file.

At startup, the sample application displays the screen shown on the right.

Enter the printer's Bluetooth MAC address the text box under "Enter Bluetooth MAC address".

Then click the "START" button. The display screen will then disappear and you will have 10 seconds to browse to a screen you wish to print.

After 10 seconds have elapsed, the display screen will reappear and the printer will print the full contents of screen that was previously displayed.

Enter Bluetooth MAC address:

002258317505

Press the START button. Then you'll have 10 seconds to browse to the screen you wish to print.

START
